

## Quality Assurance Agreement (QAA)

### Attachment 2

Between **GAUDLITZ GmbH**  
 – hereinafter called **GAUDLITZ** or **Ordering Party** –

und **Company** \_\_\_\_\_  
 – hereinafter called **Supplier** or **Deliverer** –

## ppm-agreement

ppm-target agreement:

	ppm – target
2020	
2021	
2022	

The contracting parties are committed to the goal of zero defects.

GAUDLITZ GmbH regularly creates a supplier evaluation for the quality he provided. The determination of the product quality error rate will be effected according to the ppm (parts per million) calculation formula, recommended by VDA.

If GAUDLITZ has determined the delivered batch to be partially defective, but the actual number of defective parts cannot be identified for logistical reasons, the whole delivery lot will be integrated in the evaluation as defective.

The shortfall of the aforementioned ppm-target agreement does not release the supplier from his obligation to remove all defects, as well as to carry on the continuous improvement (CIP).

Legally or contractually agreed rights of GAUDLITZ arising from defects will not be affected by this agreement.
